At CCM, hockey is in our blood. For more than a century we've been bringing innovation to hockey and continually reinventing ourselves to help players reach their goals. We push the limits so that players have what they need to get better each and every day. This game is more than just a passion for us, it is, simply put, a way of life. We live and breathe hockey day in and day out. We have been, and always will be a part of this game. Our commitment is to continue to make this great game of ours even greater.

*We are CCM.
We are Made of Hockey.*

The CCM logo is displayed in white, bold, italicized capital letters on a red rectangular background. The letters are stylized with a slight slant and a shadow effect, giving it a three-dimensional appearance. The logo is centered horizontally within the red box.

THE ONE-PIECE BENEFIT

The one-piece boot is the most important innovation in hockey skates in over a decade, one that has exploded onto the scene with over 100 NHL players switching to it in the last two years. CCM is the #1 brand of choice in this category.

FIT ADVANTAGES

A one-piece boot means CCM has removed the need for an outsole underneath the boot and created a one-piece, seamless quarter package. This provides significant advantages to players from a fit perspective. In fact, many of the best players in the world agree that one-piece models are the best-fitting skates in the industry. Just ask Tavares, Burns, Bergeron, Parise and Jones, to name but a few.

The reason is simple: with a one-piece boot, a higher level of precision can be achieved when shaping and curving the various skate materials to a foot. So whether it's around the heel, the ankle or the forefoot, skates can be designed with a higher level of precision, meaning they simply fit players better.

More specifically, players will have a greater contact area with the entire skate, eliminating all negative space and providing a more comfortable and 360-degree connected fit overall.

LIGHTER WEIGHT ADVANTAGES

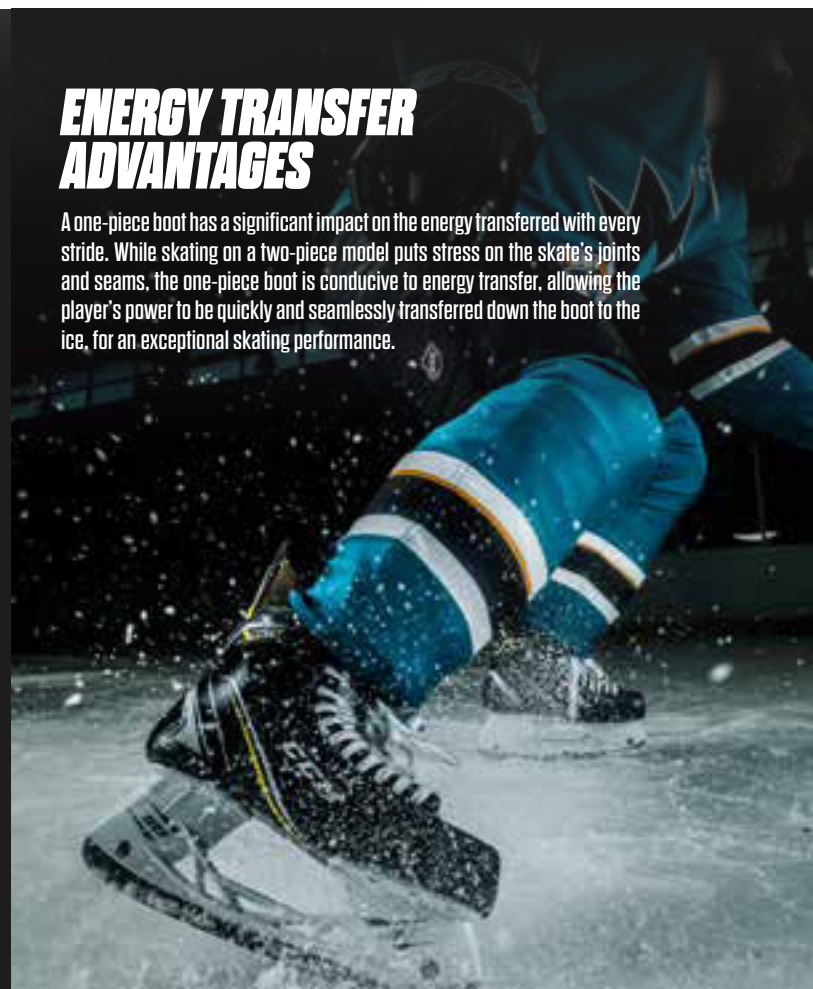

Moving from a traditional two-piece skate construction to a one-piece skate means that components and materials are taken out of the boot, making it lighter and boosting performance.

A two-piece boot has a quarter package and an outsole underneath that is bonded with heavy materials like glue and nails.

In a one-piece boot, the outsole and bonding materials are taken out and the boot is fused as one seamless construction for a better fit and lighter weight. This step automatically enhances the performance of the skate.

ENERGY TRANSFER ADVANTAGES

A one-piece boot has a significant impact on the energy transferred with every stride. While skating on a two-piece model puts stress on the skate's joints and seams, the one-piece boot is conducive to energy transfer, allowing the player's power to be quickly and seamlessly transferred down the boot to the ice, for an exceptional skating performance.

SUPER TACKS ASI [NEW]

The skate that introduced the one-piece benefit to the hockey world and changed the game in 2016 is back with a whole new design, an enhanced fit and is loaded with high performance features.

Featuring the engineered and patented MonoFrame 360 technology — one of the most popular skate technologies in hockey — the new Super Tacks ASI pushes the limits even further on a skate that has already broken the barriers of fit and performance.

ONE-PIECE BENEFIT

A newly designed fully anatomical shape that molds to every inch of the player's foot and helps provide more foot-to-skate contact. The ultimate fit.

CARBON COMPOSITE FRAME

A one-of-a-kind carbon composite material that helps players generate extreme power in their skating stride.

SPEEDBLADE BLACK

A premium, oxide-treated runner that helps provide advanced performance, a longer edge life and higher resistance to corrosion.

QUARTER PACKAGE

MONOFRAME 360 - ONE PIECE

One-piece boot frame increases the foot contact area with the entire skate boot.

QUARTER PACKAGE

3D-LASTED TECHNOLOGY

High-precision ergonomic skate boot giving players an excellent, locked-in feel.

MATERIAL

CARBON COMPOSITE

Premium carbon composite offers excellent energy transfer.

MATERIAL

ROCKETFRAME COMPOSITE

NHL-caliber lightweight composite material.

FIT

ANATOMICAL

A form-fitting, 360-degree fit around the forefoot, heel and ankle.

CORE

SPEEDCORE 3 STIFFNESS

Super lightweight, rigid and thermo-formable core generating ultimate performance.

CORE

SPEEDCORE 3 STIFFNESS

Super lightweight, rigid and thermo-formable core generating ultimate performance.

LINER

TOTALDRI WITH DURAZONE ABRASION PROTECTION

High performance moisture-wicking material keeps feet dry and skates light.

LINER

TOTALDRI PRO WITH DURAZONE ABRASION PROTECTION

High performance moisture-wicking material keeps feet dry and skates light.

COMFORT PAD

SMOOTH CONTOUR

Soft pad around collar of the boot for excellent foot and ankle comfort.

COMFORT PAD

SMOOTH CONTOUR PRO

Dense pad around collar of the boot for superior foot and ankle comfort.

ANKLE PADDING

MULTI DENSITY MEMORY FOAM

Symmetrical foam comfort pads wrap around player's foot for customized fit and comfort.

ANKLE PADDING

MULTI DENSITY MEMORY FOAM

Asymmetrical foam comfort pads wrap anatomically around player's foot for customized fit and comfort.

TONGUE

TRITECH FLEX WITH MOLDED LACE-BITE PROTECTION

Advanced protection, comfort and the forward flex players need.

TONGUE

TRITECH FLEX WITH MOLDED LACE-BITE PROTECTION

Advanced protection, comfort and the forward flex players need.

MIDSOLE

LIGHTWEIGHT COMPOSITE MIDSOLE

Enhanced energy transfer platform for blade to boot interface.

MIDSOLE

LIGHTWEIGHT COMPOSITE MIDSOLE

Enhanced energy transfer platform for blade to boot interface.

OUTSOLE

EXTRA STIFF CARBON COMPOSITE WITH EXHAUST SYSTEM

Offers torsional rigidity to maximize energy transfer.

FOOTBED

CCM ORTHOMOVE

New customized arch support inserts allow players to enhance the fit of the skate.

FOOTBED

ANATOMICAL RESPONSE

Provides support and comfort.

HOLDER/ RUNNER

SB4.0

Proven durability with increased attack angle providing greater strides and cornering.

SPEEDBLADE BLACK

Premium blade with oxide treatment provides a harder runner with a longer edge life and excellent resistance to corrosion.

HOLDER/ RUNNER

SB4.0

Proven durability with increased attack angle providing greater strides and cornering.

SPEEDBLADE BLACK

Premium blade with oxide treatment provides a harder runner with a longer edge life and excellent resistance to corrosion.

RIBCOR 70K SKATE

Introducing the completely redesigned RIBCOR 70K skate. It was time for a change, which culminated in a fully revamped skate whose creation was founded on leading biomechanics research and substantial input from top NHL stars who choose this skate over any other.

The RIBCOR 70K features the innovative FlexFrame Technology which offers excellent forward flexion and lateral stability to provide players like Crosby, Duchene, Forsberg and Tatar with the most optimized skating stride in hockey.

FLEXFRAME TECHNOLOGY

Based on industry-leading biomechanics research conducted with top NHL stars, the FlexFrame Technology provides excellent forward flexion to allow players to generate power and lateral stability, which helps to maximize energy transfer with every stride.

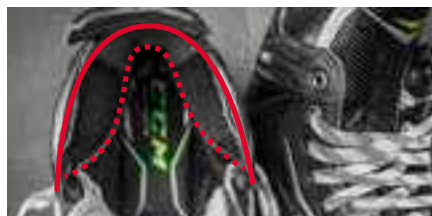

LIGHTWEIGHT SKATE CONSTRUCTION

Premium composite materials help reduce the skate's weight by over 70 grams compared with the previous generation.

CONTOURED HEEL LOCK DESIGN

A new high-definition heel lock and ankle lock boot shape replaces the need for the previous generation's Pump while offering a flexible fit for all players.

[SK70K]

JETSPPEED FT1

The JetSpeed FT1 is the first ever one-piece boot frame skate in the JetSpeed family. Featuring LITEFRAME 360 technology, the JetSpeed FT1 is a highly refined skate designed with leading-edge engineering to help maximize a player's speed on the ice.

Its ultra-lightweight structure makes it the lightest pro-caliber JetSpeed skate to date. The monocoque construction gives players two critical benefits: A complete 360-degree piece wraps around and underneath the foot for a customized fit, and a seamless direct energy transfer platform helps generate more speed with every stride.

LITEFRAME 360 TECHNOLOGY

Lightweight one-piece composite boot frame that provides players with a close and tapered fit around the entire foot. The technology also eliminates the need for an outsole, helping the player generate extreme speed.

TOTALDRI PRO LINER

Specialized premium material designed to wick away moisture quickly and efficiently, to keep feet dry and skates light.

SPEEDBLADE HYPERGLIDE

Polished steel blade that helps provide advanced performance and glide efficiency.

CORE

SPEEDCORE 1

Lightweight and thermo-formable core generating excellent performance.

LINER

HEAVY DUTY MICRO-FIBER WITH DURAZONE ABRASION PROTECTION

Comfortable and high resistance to wear.

COMFORT PAD

SMOOTH CONTOUR PRO

Soft pad around collar of the boot for excellent foot and ankle comfort.

ANKLE PADDING

MULTI-DENSITY MEMORY FOAM

Symmetrical foam comfort pads wrap around player's foot for customized fit and comfort.

TONGUE

FELT TONGUE WITH EMBOSSED LACE-BITE PROTECTION

7mm felt with reinforcement layers for increased comfort and protection.

OUTSOLE

REINFORCED INJECTED OUTSOLE WITH EXHAUST SYSTEM

Rigid design that helps transfer energy.

FOOTBED

CCM ANATOMICAL RESPONSE

Provides great support and comfort.

HOLDER

SPEEDBLADE 4.0

Proven durability with increased attack angle providing greater strides and cornering.

RUNNER

SPEEDBLADE STAINLESS STEEL

Provides a long lasting edge for long term performance.

CCM SKATE REPLACEMENT SCREWS

[ACUPLU]

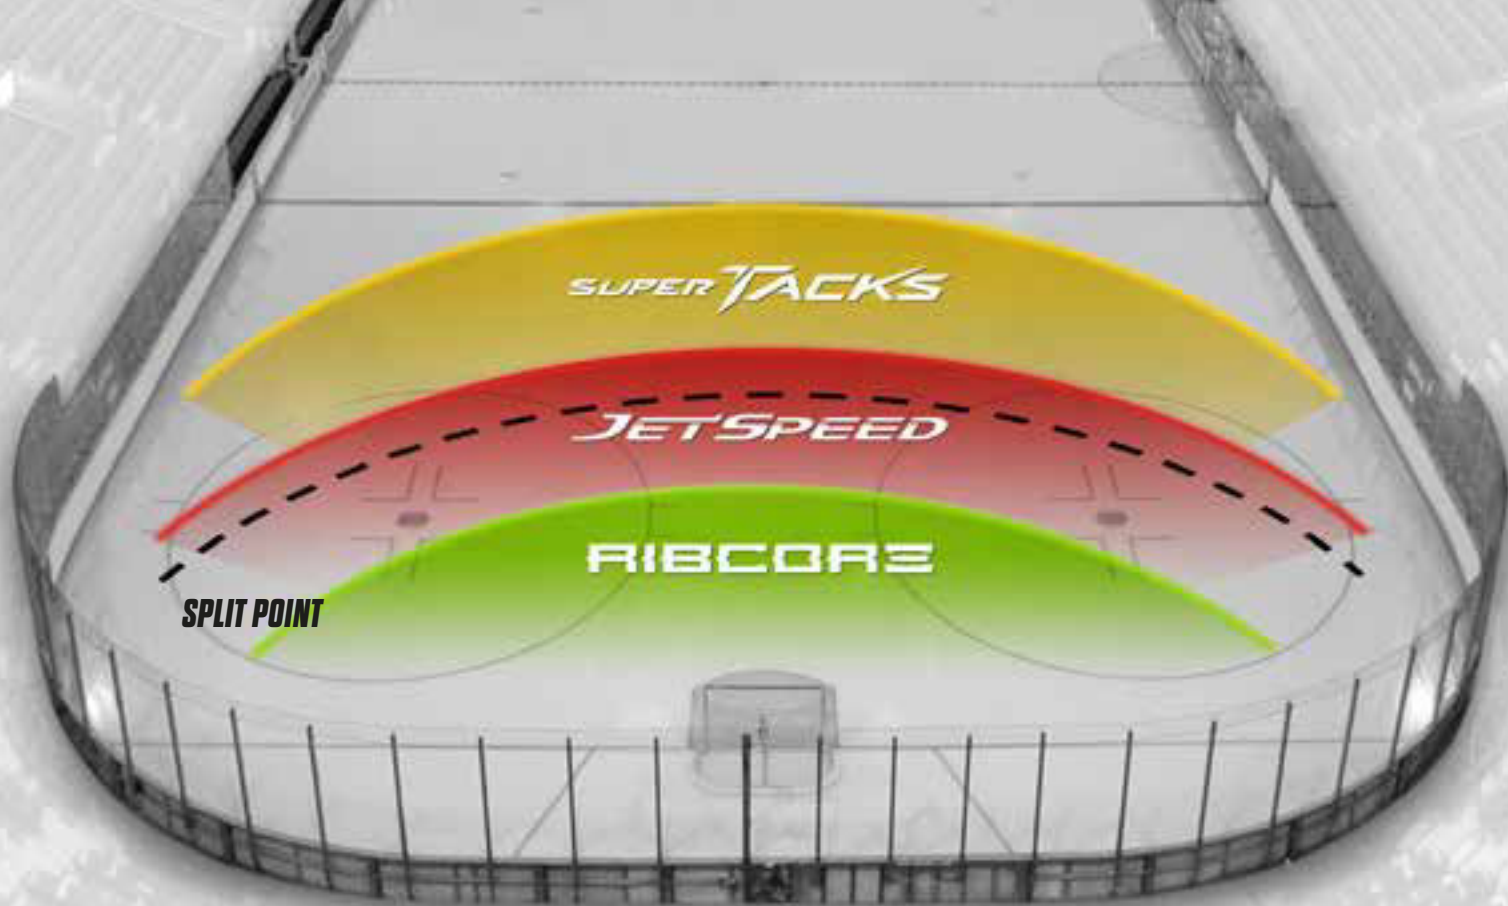

SKATE OVEN

[BRANDK]

BRANNOCK

TOTAL SHOT TIME = [LOAD TIME + UNLOAD TIME] + PUCK FLIGHT TIME

WHERE DO YOU SHOOT?

Shooting is broken down into 3 phases: **LOADING**, **UNLOADING**, and **PUCK FLIGHT TIME**.

- > **Maximum Power** > Longer loading time leads to more energy storage and greater puck speed and acceleration.
- > **Maximum Quickness** > Quick release shots reduce loading/unloading time to minimize time to release.

SPLIT POINT

Using Shooting Performance Lab data, CCM has broken down the offensive zone for the player and identified a key Split Point to identify where the player benefits of each shot :

Above the split point, maximum **speed** is required to get the puck to the net faster

Below the split point, maximum **quickness** is required to get the puck to the net faster

SUPER TACKS

The energy stored by the longer loading period benefits players looking for maximum power.

JET SPEED

Hinge effect concentrates loading zone for players looking for blend of speed and response.

RIBCORE

Short loading period benefits players looking for quickness of release.

SUPER TACKS

— = SOFT — = STIFF

MID KICK POINT

Stiff bottom of the shaft for more control with a softer mid-section to maximize loading and power.

XX-STIFF

A very stiff blade which is reinforced at the heel and toe to provide unparalleled accuracy and durability.

JET SPEED

HYBRID KICK POINT

Optimized flex zones create a hinge for greater power and speed.

REGULAR

The addition of a dampening layer on the face of the blade provides a new feel for great control

RIBCOR

LOW KICK POINT

Gradual decrease in stiffness in the bottom of the shaft to maximize ease of loading and quick releases.

STIFF

The ideal stiffness level to maximize feel while not compromising quick releases.

JETSPEED [NEW]

Developed for the speed of today's game, the new JetSpeed stick features a hybrid kick point, a new geometry and the Jetstream blade. The new hybrid kick point creates a power hinge effect allowing the player to more fully load the shaft without any twist occurring in the shaft. The new JetSpeed shape provides a unique combination of comfort and control while the JetStream blade employs CCM's patented multi-channel blade and proprietary dampening material to achieve a blend of lightweight and feel. The final structure is reinforced with Sigmatax spread-tow technology from top to bottom, making it one of the most advanced products in the marketplace.

HYBRID KICK POINT

Optimized stiffness "bump" creates a hinge effect for greater power and control. Engineered soft taper for increased speed.

Sigmatax spread-tow technology

NEW JETSPEED SHAFT DIMENSIONS

Rounded corners and convex top/bottom to follow the contours of your hand. Concave sides for greater control.

Seamless taper for optimized release.

JETSTREAM BLADE WITH DAMPENING LAYER TECHNOLOGY

CCM's patented multi-channel blade for precision and consistency. Proprietary dampening material to achieve a blend of lightweight and feel. Sigmatax spread-tow structure + textured face.

RIBCOR TRIGGER² PMT STICK

The Ribcor franchise keeps gaining loyal followers due to its proven performance, and the Ribcor Trigger² is no exception. With an improved taper and optimal flex ratio, the ease of loading and the quickness of release is unlike anything in the market. The addition of an enhanced flex zone in the upper shaft also allows players to load more energy by using their top hand as a lever. When all these new features are combined with Sigmalex spread-tow technology, what you get is our best-performing Ribcor stick to date.

IMPROVED TAPER

The seamless taper profile offers a smooth transition area which helps optimize the low kick flex profile. The shape has been engineered to allow for greater vertical bending in the lower taper area for maximum shooting efficiency.

OLD TAPER

NEW TAPER

OPTIMAL VERTICAL FLEX PROFILE

Optimized vertical flex profile allows players to move the puck into shooting position with greater ease. This means players can bring their stick in close to the body when loading before exploding on the release.

CROSSBOW EFFECT

Developed directly from data acquired from the performance lab, the Ribcor Trigger² profile features an enhanced flex zone in the upper third of the shaft to allow players to store maximum energy in the upper and lower parts of the shaft and thus create a crossbow effect while shooting.

SUPER TACKS 2.0 STICK

The Tacks line has proven itself with its consistent performance through the years. The Super Tacks 2.0 stays true to that while pushing performance and durability levels further, thanks to our partnership with Sigmatec, a global leader in performance composite fiber.

The kick point has also been improved to provide better feel on passes while ensuring great loading on wrist shots and slap shots. Lastly, the blade is extremely stiff, allowing players to hit their target more consistently and significantly improving their shooting accuracy.

The Super Tacks 2.0 redefines what all-around performance means.

PERFORMANCE COMBINED WITH DURABILITY

Our new partnership with Sigmatec allows us to achieve new performance and strength levels due to the company's tried and true carbon weave, which is also used on performance race cars and military equipment.

MORE RESPONSIVE MID KICK POINT

Players will get the same benefits from the two distinct loading zones, one softer for wrist shots and one stiffer for slap shots, and will also enjoy the advantage of having a more responsive taper to improve the feel on passes.

UNPARALLELED SHOOTING ACCURACY

The blade of the SuperTacks 2.0 is very stiff, making the opening angle very slim, which allows players to be more consistently accurate. The addition of Sigmatec fibers not only provides stiffness, but also helps to increase durability.

Every player can find the right fit with a CCM helmet. Our helmets are designed to adjust to all head shapes to ensure a great level of comfort.

COMMITMENT TO SAFETY

Our commitment to safety is paramount. Our engineering teams are continuously looking through cutting-edge technology. As a result of our partnership with the Neurotrauma Impact Science Laboratory, we are able to deliver innovative products that offer an elite level of protection.

uOttawa

FITLITE 3DS

The CCM FitLite 3DS was built to meet the needs of our pro players. It features D30® Smart Material technology with rate sensitive properties that react differently to various levels of impact. The front to back adjustment and the new 360° wrapping Microdial III adjustment system provide an improved customized fit.

D30® SMART MATERIAL

D30® Smart Material with rate sensitive shock absorbing properties.

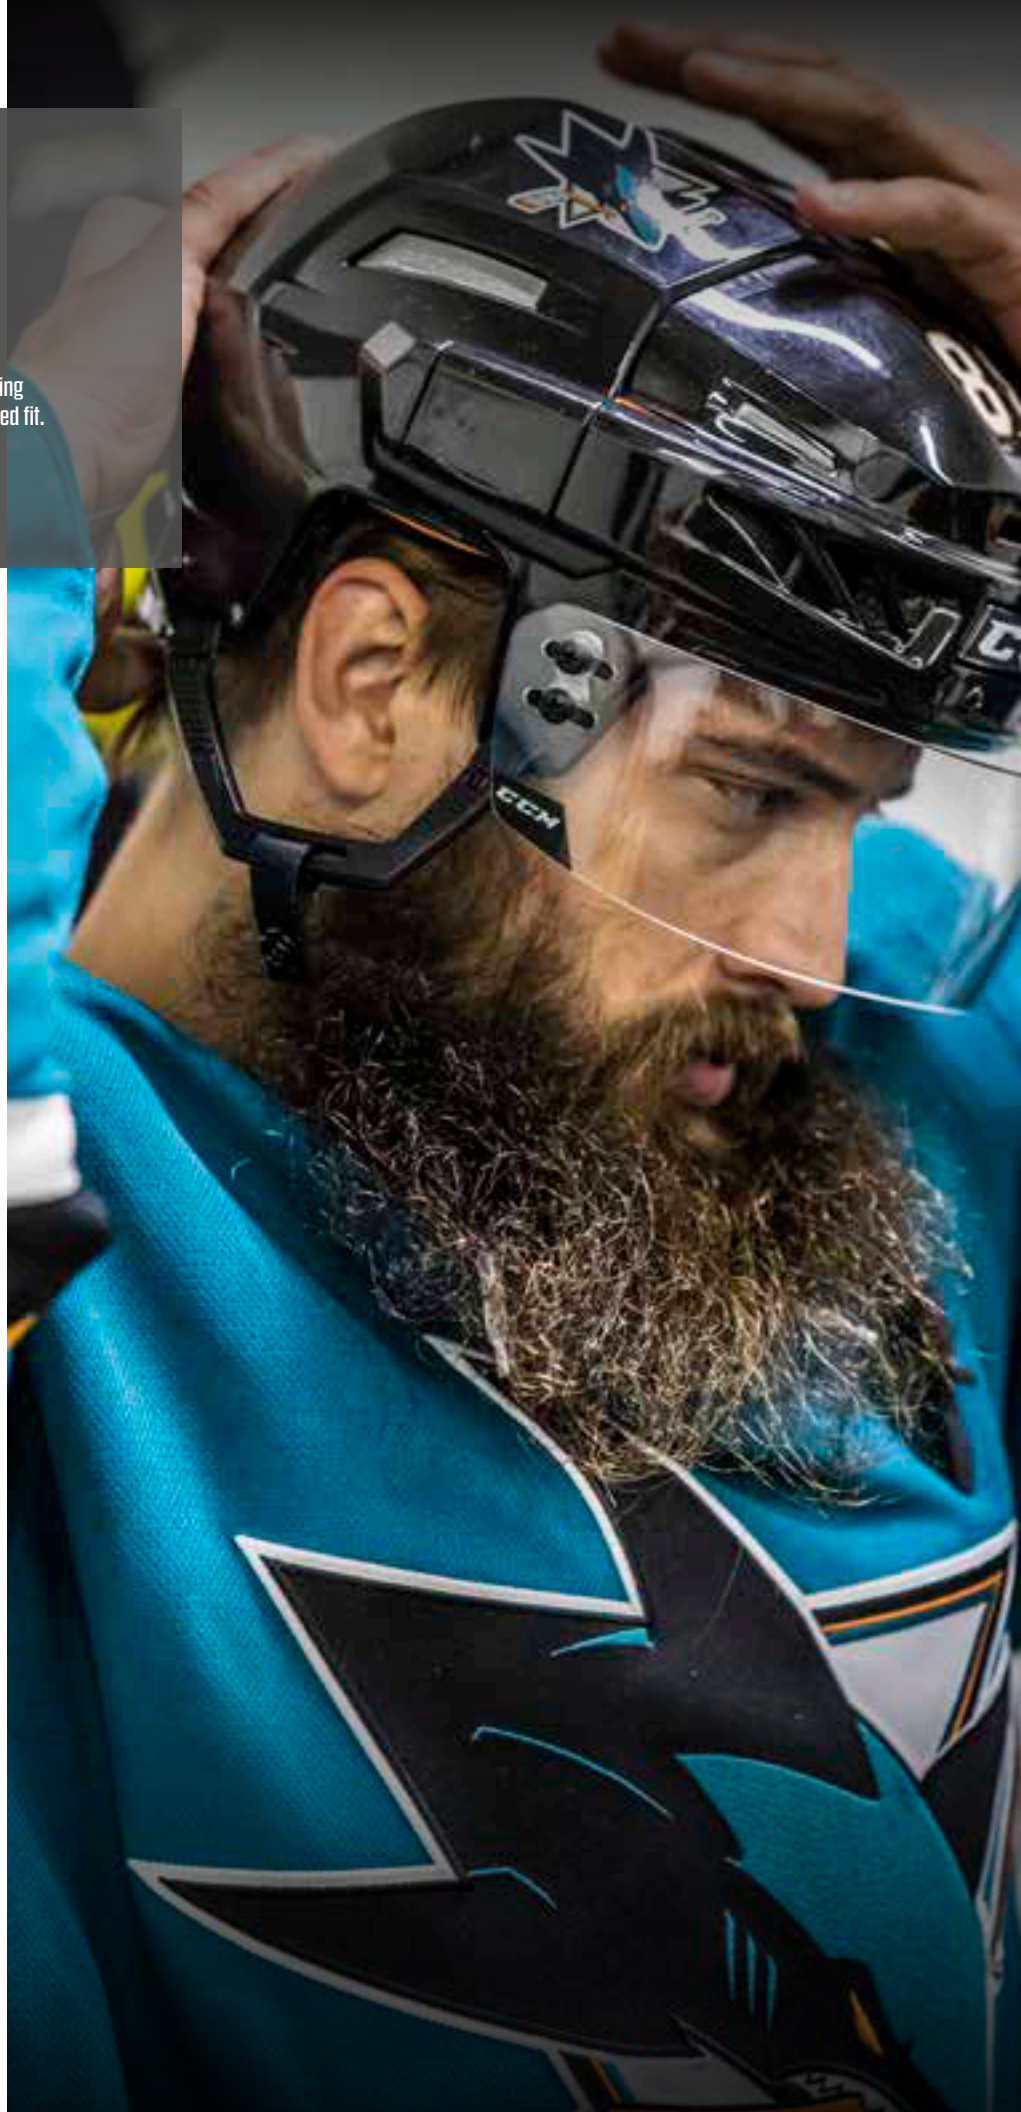

CUSTOMIZABLE FIT

The Microdial III system and low density flexible EPP with memory foam for a comfortable, 360° wrap around the head.

ABS SUBSHELL

High density PE shell with ABS subshell for a lightweight professional level of protection and customizable color options.

JETSPEED FTI PANTS **[NEW]**

The all-new CCM JetSpeed FTI pant offers a snug tapered fit popular with many of today's players. The pant features Dryfoam Technology, a comfortable liner that absorbs less water, keeping the product dry and lightweight. Engineered with RocketFrame composite, an ultra-lightweight and high strength composite material, the JetSpeed FTI pant provides players with lightweight protection on the ice.

FIT/ADJUSTMENT

Tapered, snug fit with a new internal belt system and hidden +1" pant length adjustments for easy customization.

BACK PROTECTION

Floating spine protector with new RocketFrame Composite cap.

LINER

Features DryFoam technology, a soft laminated water-repellent lining keeps pants dry and lightweight.

GOALIE

PREMIER II PADS **[NEW]**

LIGHTWEIGHT PERFORMANCE

The Premier II goal pad is re-engineered to be 20% lighter than the previous generation and built for performance to dominate the crease. A dual density core eliminates excess weight while providing improved torsional strength to maximize coverage and stability and help the pad seal to the ice. A redesigned leg channel optimizes rotation. Increasing butterfly drop velocity and recovery.

LITECORE TECHNOLOGY

20% lighter core than Premier with structural integrity to help the pad seal to the ice.

MAX REBOUND TECHNOLOGY

Directional energy transfer foam offers powerful rebound, eliminating the second shot.

QUICK MOTION STRAP SYSTEM

Responsive system for faster drop velocity and butterfly recovery.

PREMIER II CATCH GLOVE [NEW]

PUCK TRACKING AND QUICK SNAP

The Premier II glove is built for pure performance to increase visibility and puck tracking. The redesigned hand strapping system improves fit and comfort for a quick snap with D30® technology added to the palm for increased protection from stingers.

DOUBLE T POCKET

Increased visibility in the pocket.

D30® TECHNOLOGY

Increased protection and shock absorption.

ADJUSTABLE BACKHAND STRAP

Improved fit for optimized snap.

PREMIER II BLOCKER [NEW]

BALANCE AND FEEL

The Premier II blocker takes blocking a shot to a whole new level with a redesigned thumb protector to improve balance and feel. The new anatomical cuff design allows rotation of the wrist to direct the puck out of play and reduce scoring chances.

REDESIGNED INSIDE THUMB PROTECTOR

Lightweight and optimized weight balance.

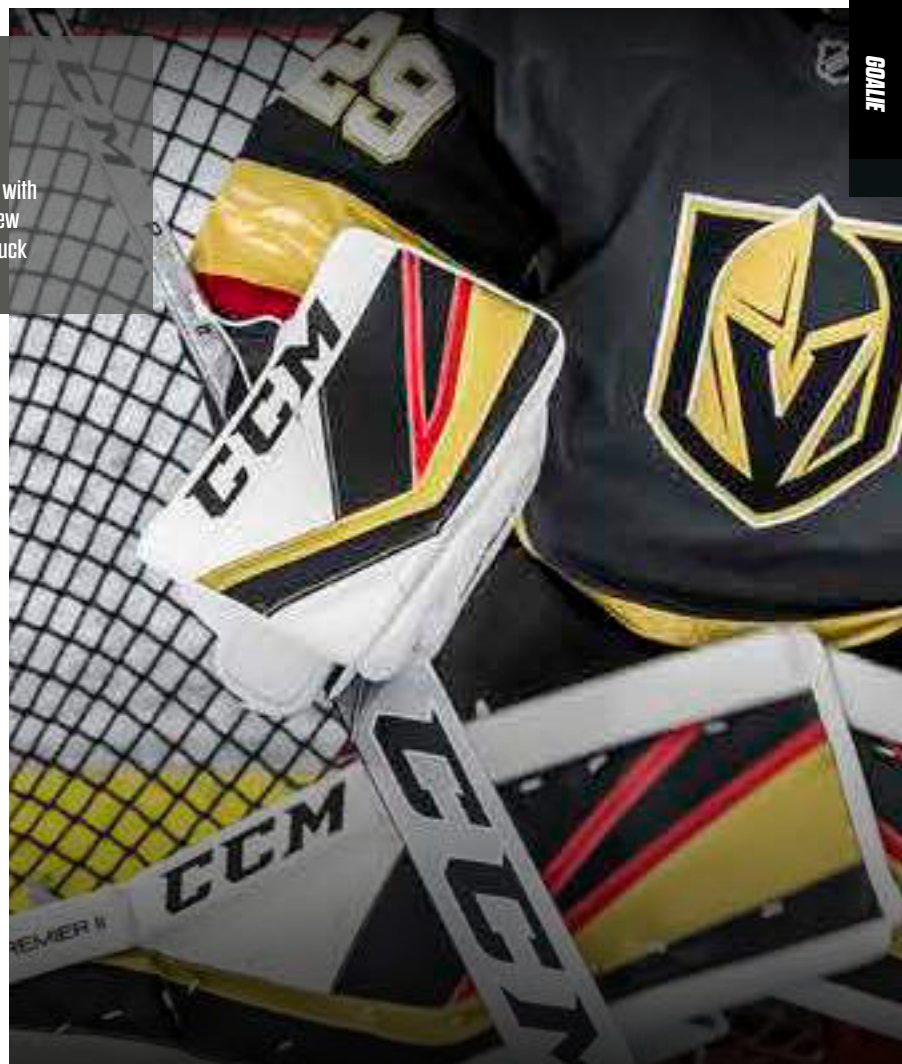

D30® TECHNOLOGY

Impact protection when the puck rolls up on the paddle.

ANATOMICAL CUFF

Increased wrist mobility for playing the puck.

[GPRFLXSP] - CUSTOM ORDERS ONLY

RETRO FLEX PADS

The Retro Flex brings the newest innovation to a classic look with the collaboration of Eflex technology and a vintage custom graphic.

MINI KNEE ROLLS

Reduces rebounds.
increases control.

HORIZONTAL STITCHES

RETRO FLEX LOGO

[GBRFLXSP] - CUSTOM ORDERS ONLY

RETRO FLEX GLOVE

The Retro Flex glove features a 600 degree angle for a mid hand closure or a 590 degree angle for a break closer to the thumb. Its one piece thumb and cuff design provides protection at the wrist area and the injection molded thumb maintains the glove shape on repeated impact.

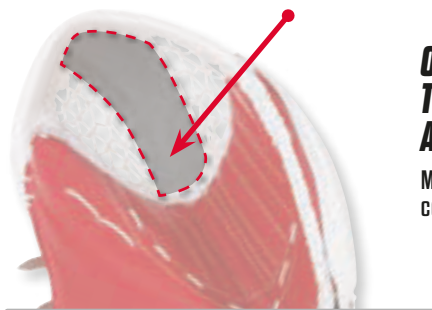

RAISED FINGER PADDING

Greater protection.

STRAIGHT TEE

Traditional construction.

ONE PIECE THUMB AND CUFF

Maximum coverage.

ADJUSTABLE CUFF

Wrist mobility.

INSIDE HIGH DENSITY FOAM

Maximized coverage.

[GBRFLXSP] - CUSTOM ORDERS ONLY

RETRO FLEX BLOCKER

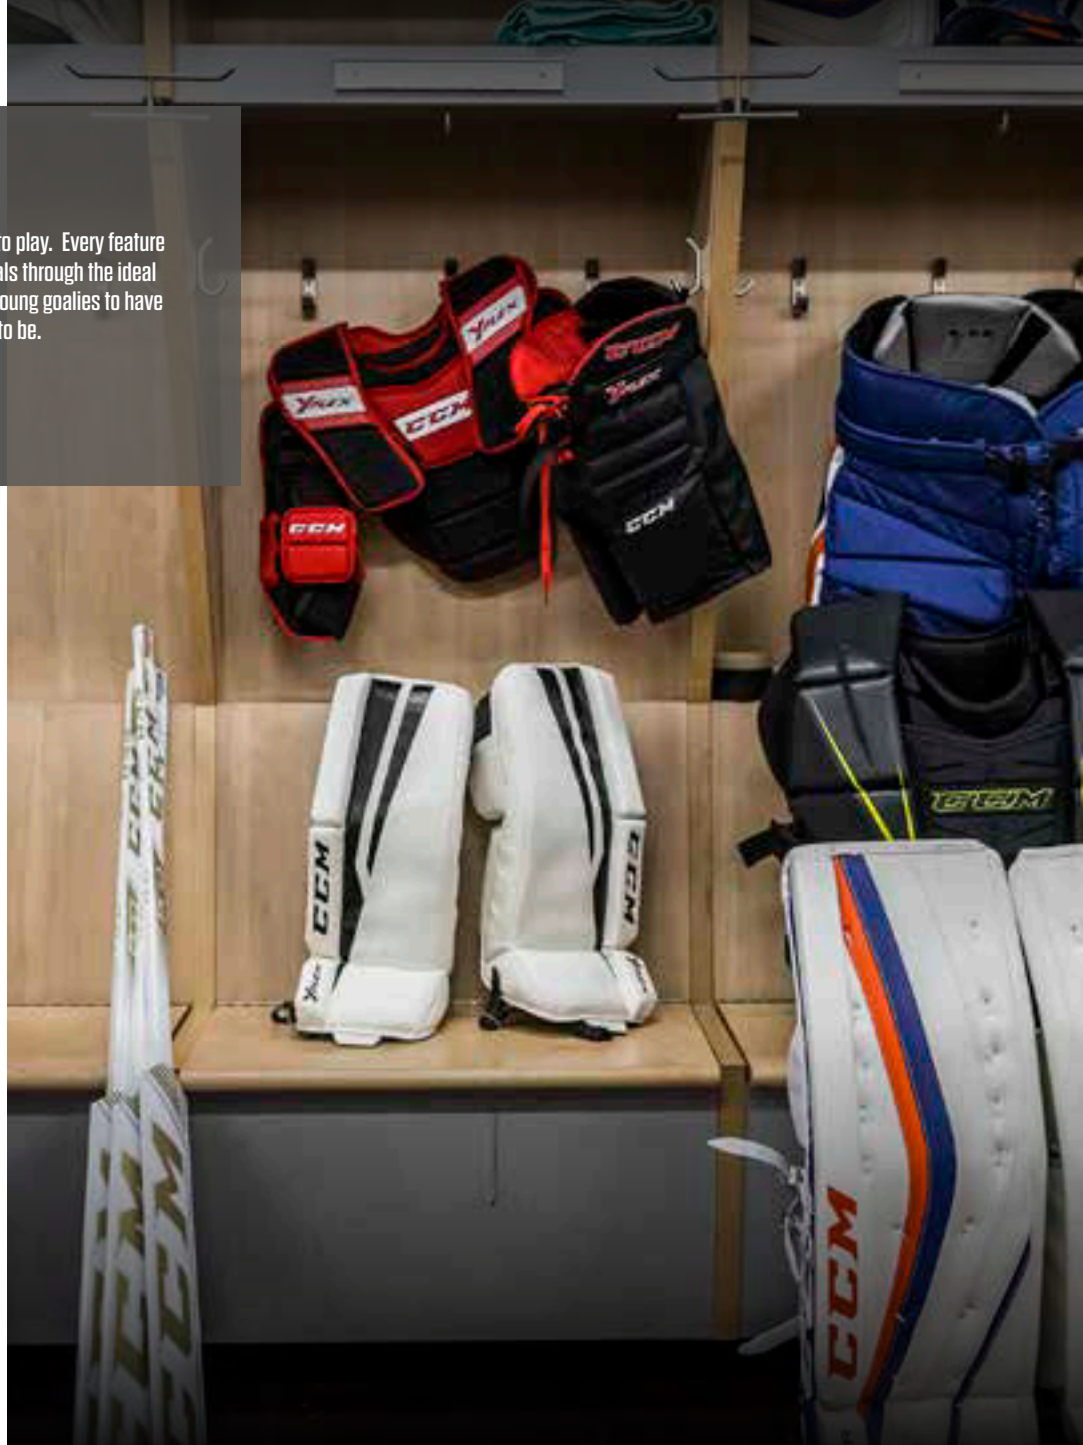

The collaboration of a bindingless construction with the vintage graphic makes the classic blocker a more durable product throughout the season. The adjustable cuff allows the cuff area to open up for wrist mobility when playing the puck with a centered palm position to provide balance and adequate coverage above and below the hand.

CREAM NASH PALM

Soft comfortable feel.

YTFLEX GEAR

The YtFlex youth series is designed for goalies learning to play. Every feature and specification promotes the proper save fundamentals through the ideal sizing, fit and flexibility. At this level it is important for young goalies to have the confidence in the net like the pro goalie they aspire to be.

[GPVFLX]

YTFLEX GOAL PAD

ADJUSTABLE KNEE CRADLE

Proper fit and knee placement throughout the season.

EASY LEG STRAP SYSTEM

Youth leg strapping system for ease and simplicity.

COMFORT LEG CHANNEL

Loose fit design for comfort and freedom of movement.

[GMVFLX]

YTFLEX CATCH GLOVE

TWO PIECE DESIGN

Flexibility in learning to play.

GAME READY BREAK

Soft glove flex for easy hand closure.

ADJUSTABLE HAND STRAPS

Customizable.

[GBYFLX]

YTFLEX BLOCKER

PRECURVED BOARD

Deflect the puck.

CENTERED PALM

Learn to play with proper hand position.

PROTECTION

Molded plastic and high density foam to protect the hand.

[ABYFLX]

YTFLEX CHEST PROTECTOR

MOBILITY

Designed specific to youth sizing for optimum mobility.

SUPER TACKS ASI GOALIE [NEW]

After revolutionizing player skates with the introduction of Super Tacks, it's now time for CCM to bring its leading innovation to goalie skates. Introducing the all-new Super Tacks ASI goalie skate featuring a pioneering one-piece boot specifically designed for goalies' movements and performance needs and for a more enhanced fit.

DUAL ZONE 360

A one-piece boot with a dual stiffness profile specifically designed for goalies' fit and performance needs. A more flexible upper provides additional comfort and helps the goalie's foot movement for better power pushes. A super stiff carbon composite under boot helps provide excellent energy transfer and responsiveness during power pushes.

ASYMMETRIC FLEX STANCE CONTOUR

A lower cut boot collar, shaped and molded to allow the goalie to flex deep into the stance for a fast butterfly drop and to also benefit from extremely quick recovery and speed to power-push position.

ATTACK PROFILE HOLDER

A new-age holder engineered with a minimalist design to provide goalies with a best in class angle of attack and significantly reduced weight, all while offering the protection they need.

RIBCOR 50K GOALIE SKATE

The RibCor 50K was designed with proven technology to be the best Pump skate we ever made and tailored specifically to the needs of the best goalies in the world. Feedback from our large stable of NHL goalies led to technological enhancements to the Pump, quarter and cowling. The end result is power, flexibility and range of motion helping to achieve better overall agility for goalies.

PROLITE GS COWLING

Ultra light cowling for an extremely fast recovery from post to post. An aggressive push-off angle for today's goalies.

ADVANCED PUMP™

The next generation in Pump™ technology is more efficient in offering a personalized pro fit with added comfort.

RIBCOR ELITE QUARTER/CORE

Enhanced pro ribbed reinforcement harnesses flexion to help generate power and agility.

Advanced TriTech Flex Zone, molded tongue, and lace-bite protection for enhanced forward mobility, deeper stance, protection and comfort.

TONGUE

MULTI LAYER FELT & D30®

Thick felt layer with D30® Smart Material provides protection and comfort.

ATTACK PROFILE HOLDER

Ultra lightweight holder designed to significantly increase a goalie's attack angle versus previous generation cowlings, and provide excellent power-push responsiveness.

PREMIER II [NEW]

Building on the success of the Premier Plus, the new and improved Premier II not only delivers great performance and feel, but also uncompromised durability. For the first time, it will feature Sigmatex spread-tow technology on the paddle and shaft, providing increased strength while maintaining a light weight. The design of the stick has also been taken to the next level with the use of a light-colored Sigmatex spread-tow. Lastly, the durability of the shaft has been greatly enhanced with the addition of Sigmatex as well as improved shaft compaction and overall consistency.

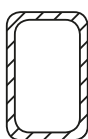

SILVER SIGMATEX SPREAD-TOW TECHNOLOGY

Improves performance due to its lighter weight while providing great strength on the paddle and shaft. The lighter design appeals to goalies while eliminating the weight added by extra paint.

SHAFT IMPROVEMENTS

Better consistency in shaft compaction minimizes weak points, providing greater corner strength.

ADDED FEEL

Dampening of vibrations due to ZeroFlux technology gives goalie better rebound control while providing great shooting and passing control.

COMBINATION OF MATTE AND GLOSSY FINISH

All the great benefits of grip combined with the look and feel of matte finish.

EXTREME FLEX III

Our new Extreme Flex 3 foam core line is the result of a close collaboration with our NHL goalies. By improving the consistency and weight of our shafts, we are able to deliver an unmatched level of performance while providing goalies with the traditional feel they want. A big emphasis was also placed on developing junior sticks that are better designed for the needs of younger goalies. Everything from the flex profile to the blade has been improved.

APPROVED BY PROS

The new Extreme Flex III was developed by working closely with our NHL goalies. As a result, we have seen even more pro goalies switch to our Extreme Flex III stick.

CONSISTENT PERFORMANCE AND FEEL

The shaft has been improved to not only be lighter, but also a lot more consistent. This ensures that goalies can rely on the same great performance and feel each time they step on the ice.

IMPROVED JUNIOR STICKS

Our junior sticks have been redesigned to help younger goalies control and pass the puck better. The flex profiles have been improved and the curves are longer and bigger.

EXTREME FLEX SHIELD II [NEW] GOALIE PANT

Now in its second generation, the Extreme Flex Shield II goalie pant incorporates the highly desired fitted shell of our PREMIER Pro goalie pant with a new tapered waist. The front shell incorporates articulating protection zones with integrated D30® technology. Performance-proven strategically engineered interior belt allows for the perfect fit while maximizing your coverage in the crease.

D30® TECHNOLOGY

Added protection.

INNER BELT

Amplified coverage.

EXTENDABLE LENGTH

1" custom added length.

PREMIER PRO GOAL PANT

The best fitting pant just got better with increased D30® Smart Material protection. Customize your fit and maximize your coverage with the revolutionary inner belt suspension system.

D30® TECHNOLOGY

Added protection.

INNER BELT

Broad coverage.

EXTENDABLE LENGTH

1" custom added length.

APPAREL FEATURES

PUT SWEAT IN ITS PLACE
TACTICAL DRY WICKS MOISTURE AWAY FROM YOUR SKIN, HELPING YOU STAY DRIER AND COMFORTABLE

YOUR BODY IS AN AMAZING HEAT SOURCE
TACTICAL DEGREE TRAPS BODY HEAT AND LETS SWEAT ESCAPE

STAY COOL AND COMFORTABLE
TACTICAL COOL USES VENTILATION, MOISTURE MANAGEMENT AND FABRIC CONSTRUCTION TO HELP AID THE RELEASE OF HEAT

TACTICAL RESISTANT USES AN ANTI-MICROBIAL AGENT THAT HELPS CONTROL ODOR FOR OPTIMAL FRESHNESS OF YOUR GEAR

Body sizing: Size specifications are based on body sizing measurements. Use this size chart as a guideline when ordering, allow enough room for ease of movement. Sleeve Length: Measure from the center back of the neck, over the point of shoulder and down the outer side of the arm to the wrist bone. Chest: Measure just under the arms. Waist: Loosely measure the narrowest circumference of the waist. Size charts are for reference only. Fit may vary depending on the construction and materials.

GAMEWEAR

QUICKLITE PRACTICE

5000 PRACTICE SERIES

The Quicklite 5000 practice series is the perfect go-to jersey for players of any age. Offering a wide array of colors, this new simple design makes it easy to decorate without compromising color fastness and quality.

HIGH PERFORMANCE FABRIC

New knitting construction provides optimal color fastness post embellishment, enhanced snag resistance and a nice hand feel.

RE-ENGINEERED FIT

Re-invented streamlined fit that allows the player to move comfortably on the ice.

NEW BRAND POSITIONING

Strategically positioned CCM embroidery provides full front embellishment zone.

[5000] **[NEW]**

5000 PRACTICE JERSEY

SIZES SR S, M, L, SRG

QUICKLITE PRACTICE

6000 PRACTICE SERIES

The Quicklite 6000 practice series is engineered with Tactical Dry technology which keeps the player cool and dry while preserving stamina. Easy to decorate and offers an extensive color assortment for all your association needs.

HIGH PERFORMANCE FABRIC

Tactical Dry formula wicks moisture away from your skin \helping you stay dry and comfortable.

New knitting construction provides optimal color fastness post embellishment, enhanced snag resistance and a nice hand feel.

Mesh inserts allow for higher ventilation and airflow to keep the player cool.

ERGONOMIC ARM

Articulated elbow brings an additional level of maneuverability to provide enhanced range of motion.

FLEX COLLAR

Flex fabrication of the stretch interlock collar adds unrestricted mobility for comfortable wear.
